Company Profile: Success Resources International

Success Resources International is a group of companies comprising Success Resources Pte Ltd – Asia’s largest seminar organiser, and SkyQuestCom Global Pte Ltd – an online, real-time seminar firm.

Founded in Singapore by Richard Tan in 1993, Success Resources Pte Ltd has grown to become the leading seminar organiser in Asia and has been instrumental in bringing internationally acclaimed motivational speakers, such as Anthony Robbins, Robert Kiyosaki, Michael Porter and former United States President Bill Clinton, to over 16 countries in Asia.

Success Resources’ programmes have touched the lives of over 200,000 participants around the world. The company helps individuals stay relevant, productive and results-oriented in today's fast changing and unpredictable world.

In 2002, and to offer an alternative to physically attending large seminar events, Success Resources International established SkyQuestCom Global Pte Ltd to allow the education and learning from events to become available through e-learning. Leveraging on the power and reach of the web, people are able to learn at any time, anywhere and at their own pace. This natural addition to the company’s portfolio of services confirms the company’s position as Asia’s leading provider of real time and virtual seminar experiences.

In 2008, SkyQuestCom became the only Singapore-based company to be awarded a place in the Top 20 of the ‘Deloitte Technology Fast 500 Asia Pacific’ programme (placed 11th). The programme recognises technology companies that have achieved the fastest rates of annual revenue growth. Overall, companies that ranked in the programme in 2008 had an average growth rate of 707%.

SkyQuestCom fast surpassed this percentage, making them the #1 fastest growing technology company in Singapore and the 11th fastest in the Asia Pacific region.

In September 2009, as part of its international growth strategy, Success Resources International acquired Capital Intelligence Ltd, a publicly-listed company trading on the Australian Stock Exchange. The acquisition of Capital Intelligence - a stock market education and training company - provides Success Resources International with a listed vehicle to leverage emerging opportunities in the capital markets.

Success Resources International is headquartered in Singapore and managed by an international team with extensive events and seminar experience.
